DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 27, 29 and 31-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the claims there is recited at two separate occasions, "an extension". Each recited extension is described with a desired function. It is not clear in the claims how the "extension" provides a support to the surface on which the dispenser is positioned. It is also not clear which element in the drawings is represented by this "extension". The drawings show an extension protruding from the body of the housing and a foot element which extends from the extension to the surface upon which the dispenser is positioned. In the description of the "void" applicant recites that it is defined between the "extension" and the "overhanging portion". It is not clear in the claims which "extension" is being referred to in the description of the void.

Allowable Subject Matter

Claims 3-14, 17-22 and 24 are allowed.
